Trey & Mamie Herron Chairman's Club

“We believe in our people, and it's so rewarding to witness them start believing in themselves and achieving their goals.”

Trey & Mamie Herron
Chairman's Club

Trey Herron has been a part of the Herbalife Nutrition family ever since his parents started their Herbalife Nutrition business when he was just 10 years old. Seeing them in action – building a business, while enjoying a healthy, active lifestyle and helping others to do the same – left an impression on Trey and ultimately inspired him to follow in their footsteps. As a 19-year-old college sophomore, Trey became an Herbalife Nutrition Independent Distributor and started a part-time business of his own.

At first, he wanted to make extra money around his university schedule, but many of his friends started seeing results and his business quickly grew as word spread throughout his campus community and beyond. By the time he graduated, there was no doubt that he would dedicate full-time effort to building his business.

When Trey married his wife, Mamie, she decided to join him in expanding their business. They worked consistently for several years in Singapore and have since developed an international organization. Since moving back stateside, Trey and Mamie have opened many Nutrition Clubs around Mississippi and have continued to grow a successful organization rooted in their commitment to and passion for serving others. Through their Clubs, they're able to give back to their community by hosting free Fitness Camps, supporting local charities and fundraising efforts and offering opportunities to learn about proper nutrition.

Trey and Mamie exhibit how they live the Distributor Difference through their focus on building meaningful connections with their team and customers and within their community. “We love people for who they are, and we're proud to have built such strong relationships through this business,” says Mamie, “We are where we are because someone believed in us when we needed it, and now that's what we get to do for others. We believe in our people, and it's so rewarding to witness them start believing in themselves and achieving their goals.”

Like Trey's parents, he and Mamie have been able to design a lifestyle that allows them to be present parents for their son, Will, while instilling in him the value of hard work, a healthy lifestyle and helping others. Because of the example they've set for him, Will shares their desire to make a difference in others' lives, and they're proud that he has expressed interest in one day having an Herbalife Nutrition business of his own.

One powerful lesson Trey and Mamie have learned over the years is the importance of leading by example. “You never know who you could inspire,” says Mamie. By working on themselves and seeking ways to grow each day, they feel they're able to offer the best version of themselves to those around them. “It's not about the end goal or any rewards, the true value is in the process and who you become because of it, and we're proud of the people we've grown into throughout this journey,” Trey says.
