

MPC

We Make The Difference

Member Business Practices and Compliance (MPC) seeks to ensure that Members conduct their business with the highest integrity and in compliance with the Herbalife Nutrition Rules, while providing great customer service.

These goals are achieved through coaching and education of easy-to-understand rules and business practices, engaging training content, smart proactive monitoring of Member activity and effective enforcement.

What We Do

MPC protects the brand, the customers, the products and the Business of Herbalife Nutrition Independent Members and promotes the sustainable business of our Members.

How We Do It

We educate and train — we understand the need to support our Members by sharing Rules of Conduct related information, deliver regular trainings and provide one-to-one coaching.

We use **compassionate compliance** to coach and educate Members on Business Practices and the Rules of Conduct. We share the reasons why the rules are in place, as well provide examples of what Members can and cannot do.

We **proactively monitor** Member activity to **identify potential issues** and trends early, which helps uncover issues and allows for better coaching opportunities.

Should you have any questions on business practices or what you can or cannot do, please contact us.

We are here to help.
