

RECOMMENDED USE: Take one stick pack (2.6g) of Fat Release with or after a meal or snack that contains fats. If you wish to digest fat content in a meal, such as omega-3 fatty acids, do not take Fat Release after the meal. Enjoy up to three stick packs a day, one after each meal.

Enjoy Fat Release slowly straight from the stick pack, no water required! For an added fruit twist flavor, combine one stick pack with 1 serving of Herbal Tea Concentrate, 1 serving of Herbal Aloe Concentrate or 8 fl. oz. of hot or cold water.

PRODUCT	OPTION 1	OPTION 2	OPTION 3	OPTION 4
Fat Release	1 stick pack	1 stick pack	1 stick pack	1 stick pack
Slowly pour in mouth				
8 fl. oz. of hot or cold water				
Herbal Aloe Concentrate		1 serving

† Weight loss plans are supported by taking the product three servings a day.

Support healthy weight loss through dietary fat excretion.*†

Fat Release is specially formulated with Litramine®, a patented ingredient with cactus fiber, to support weight loss targeting dietary fat excretion.*† When ingested with foods containing fats, Litramine® forms a fat-fiber complex with a portion of the fats in the food. The fat-fiber complex, which cannot be digested or absorbed, is excreted from our bodies. Litramine® can help in reducing calories absorbed from dietary fat.*

Clinical studies on adults 35 and older showed that taking 1 gram Litramine® 3 times a day with or after meals for 12 weeks can support weight loss by binding a portion of dietary fat in overweight people who were on nutritionally balanced diets and moderate intensity exercise.* Diet in study did not include Herbalife Nutrition meal program.

Litramine® patent under license from InQpharm: US 9,107,441 B2.

Litramine® is a trademark of the InQpharm group of companies.
